EXTENSIVE PREPARATIONS. Reduced Rates for the General Alger Day Certain to Result in an Immense Crowd-The Various Committees Down

to Work.

The General Alger committee met at Hotel Metropole last evening and discussed many features of the program for General Alger's reception on the 25th inst. The committee is giving the matter considerable attention and all are certain that the day will be one long to be re-membere; by the comrades of the state and Oxlahoma, many thousands no doubt being present. The success of the railroad committee in getting built fare for a radius of two hundred miles is refreshing, to put it mildly. This allows the eastern part of he state and nearly to the West line. As soon as all that had been saked for had been conceded the committee had a very broad and substantial foundation upon which to work. As agreed upon, the press of the state will be invited to give as much attention to the matter as will be of a great help and not prove a burden. The raircads have kindly consented to give some attention to the question, advertising freely at every station, which means advertisement in the second ward. I begin to say that it gives me more than ordinary pleasure to know that my course in the past has met with your approval, and I accede to your request. In case of an election my aim shall be to advance the school interests of the ward and to discharge the various duties impartially. Thanking you, gentlemen, I am yours respectfully.

The members of the exchange are much gratified over so many inquiries being made and has emphasized the belief that information sent east concerning Kausas is not without good results. The members are stimulated to proceed with sending facts cast concerning the state and in this way creating a demand for Kansas homes among those who can be greatly benefited. An effort has been made to meet this want. For several months two young men they are as vet almost entirely unfurnished entirely unable to furnish these rooms. Much of the time which they would gladly devote to the proposed work of the legge, they must spend in providing suitable accommodations for the crowds of boys who came to the rooms, and I nder the circumstance it is certainly romarkable that so many boys have been so successfully managed. Can we mothers afford to hesitate and see this good work crippled for want of help? Shall we not constitute the common postily and stand afford to nestate and erippled for want of help?
